'GRID'

— by *Pool for Petite Friture*

Grid's wooden structure, that extends on the side as a semi-circular removable wooden tablet, is held together by a strap is mounted on a black tubular steel structure. The armrest can be turned into a headrest and the round cushion can be used as a backrest or set on the tablet, lengthening the seating.

'ROBIN MIRROR'

— by *Boca Do Lobo*

Inspired by the myths of Sherwood Forest, the Robin Mirror honors the history of one of the best archers in English literature; Robin was given a strong visual texture through the use of handmade nails, each unique in their finishing, size and character. The fish-eye mirror is then supported by a brass structure. bocadolobo.com

'CREATIVE NUANCES'

— by *Samer Alameen*

Inspired by history, treasured memories and a sense of tradition, Alameen reinvents the objects he creates: his process is witty, concise and refined, adding a new layer of purpose and context where appropriate to traverse both exclusive handmade and one-off pieces alongside those that are industrially produced. The talented designer recently announced seven new designs. samer.alameen.com
